Mission

The International Professional Association for Transport & Health (IPATH) is a platform for transdisciplinary and multi-sector professionals working at the intersection of transport and health. The aim of IPATH is to share information, exchange ideas, and foster collaboration to improve health, quality of life and well-being in communities by advocating for the integration of health in the urban and transport planning agendas.

Vision

The International Professional Association for Transport & Health (IPATH) supports research and best practices aimed at integrating health into transport and urban planning. IPATH encourages strategic approaches toward the development and implementation of “transport and health” operational models while continuing to foster transdisciplinary efforts in this expanding area of research and practice worldwide.

WHAT DOES IPATH DO?

www.ipathinc.org

Core Competencies

IPATH facilitates knowledge transfer between transdisciplinary and multi-sector professionals to:

Simplify groundbreaking scientific research and practice projects shared by and between professionals working at the nexus of transport and health.

Defines key performance indicators (KPI) and/or metrics required to assess and justify resource allocation to a proposed/existing project.

Gathers scientific research and practice resources to support multi-modal systems.

Encourages open, forward-thinking discussions on transport and health.

Facilitating Knowledge Transfer Through:

Integrity

Ethics

Respect
